Jet-It-Together Now Offering More than 1,000 Trips for Shared Private Jet Travel *Online Community Members To Benefit from Expanded Service*

(Essex, CT, July 21, 2009)....Members of Jet-It-Together www.jet-it-together.com, the new online community where members experience significant cost savings on private jet travel by matching their itineraries with other members for forming shared trips, now have access to more than 1,000 trips that they can join. By combining their individual flight itineraries as a group, Jet-It-Together members can realize considerable savings on private jet travel as compared with a whole plane charter.

When you establish a free membership account at www.jet-it-together.com, you can initiate trips that will be listed for other members to join, become part of another member's trip, and have access to hundreds of Special Deals at www.jet-it-together.com. The Special Deals are time-sensitive trips that are available at competitive pricing due to the repositioning of jets and the returning of jets to their base locations. Special Deals is a new Jet-It-Together offering that gives members another way to save on private jet travel.

"Jet-It-Together is committed to delivering convenient and affordable private jet travel to our members. By adding Special Deals to the web site, we are expanding our members' options for finding the best trips that meet their needs at the most competitive prices. As we grow, we will continually review and add features to better serve our members," noted John Ackermann, a Founder of Jet-It-Together, LLC.

Jet-It-Together, LLC

Jet-It-Together, LLC is an independent company that finds, selects, and negotiates costs for shared private jet flights with FAA certified Part 135 private charter operators on behalf of its online community members. Members of the Jet-It-Together online community can initiate a shared private jet charter or be alerted to a flight that they may want to join based upon their stated travel needs or interests. Jet-It-Together experts negotiate rates that they believe are reasonable based on the operators' performance history, quality of service and adherence to industry recognized standards. Jet-It-Together, LLC is not a charter operator and it does not operate any flights. Jet-It-Together does not have any financial investment from, nor does it have any investment in any charter operator.
